

MyBnk Success Story

Tahmina, Business Battle Enfield

Tahmina 17, from Enfield County Secondary School, took part in the Business Battle as part of Enfield Summer Uni.

She was a leading member of the winning team 'Frames R US' who made a profit of £36.08 from their handmade photo frames, all of which sold out on the day.

Tahmina wants to study business at university and thought the Business Battle was great for her future.

Saying:

"It opened me up to so many skills, and helped me understand what a business actually is, practically as well as academically."

Tahmina and her colleagues were involved from the product design right through to selling their frames in Enfield Town Market, and enjoyed the pace and competition of the battle!

Adding:

"In the space of a week I've learned about communication, people skills and managing finances. I would love to run my own business one day, and would definitely recommend Business Battle."
