Content

A highly interactive digital financial education programme - designed to help children set positive money habits and mind-sets from an early age.

Created by experts, home school activities, including games, videos and role play, gets the family talking about personal finance.

These sessions improve childrens' understanding of the value of money and delayed gratification by making spending and saving decisions and gaining rewards.

This package of support brings money to the dinner table and tackles often difficult topics such as income and the household finances. Research shows lifelong money habits can be formed by the age of 7.

Sessions cover:

- ⚡ **Where Money Comes From:** Ways of earning money.
- ⚡ **Practical Value:** The cost of everyday items and the value of things in a home.
- ⚡ **Needs and wants:** Understanding needs and wants, making choices with money and resisting temptation.
- ⚡ **Keeping Track of Money:** Why it is important to keep track of spending and how to do it.
- ⚡ **Saving:** Why it is important to save.

Family Money Twist involves maths, drawing, literacy skills and drama. It helps children start their financial education journey and build on new knowledge in a fun and structured way.

We also offer an online Years 3-6** independent learning programme.

These digital products complement our Money Twist primary school offering, a series of sessions delivered directly by our expert trainers.

You can access these digital resources at learning.mybnk.org or contact info@mybnk.org.

*P1/2 - **P4-6 in Scotland.
