

Virtual Money Twist

Key Stage 5

Content

A highly interactive financial education programme covering practical and relevant everyday financial matters.

Our expert trainers deliver live and secure online lessons to your school as students complete activities in class. All materials are sent in advance.

Key Facts

Format: 1x100 minute session.

Target group: 16-18 year olds.

Group size: 12-30 young people.

This session is designed to get young people thinking and caring about their finances, both now and in their futures.

Session covers:

- ⚡ Bank account options, reading bank statements, minimum wage, payslips, tax, pensions, needs and wants, budgeting, credit and debt and the benefits of saving.

Young people will look at a range of financial products and understand how to become critical consumers through the cycle of LOOK - DO - REVIEW.

Activities encourage young people to look at options, compare and decide a course of action and keep reviewing to ensure this is the right choice for them.

Participants are encouraged to give their own views and analyse various financial problems that young people and adults are faced with, as well as considering their own financial futures.

This programme references the UK Financial Education Planning Framework for teachers and complements our Money Twist suite of directly delivered sessions and digital products.
